WHAT ARE THE

FACCES

PROGRAMS

Programming with the end goal of adolescents and children feeling excited about learning and life!

F.A.N.S.

The FACCES Academic Navigation System (FANS) helps families understand Ohio's development standards. From early learning to college, this program helps families navigate through resources and become workforce ready.

K-READY OHIO

Powered By F.A.N.S.

A free online program where parents can learn how to enhance their child's learning capabilities from home. We live in a time where technology is key in a child's education. K-Ready Ohio helps make your child's journey to kindergarten a success.

K-Ready Ohio provides families with individualized lessons, community resources and activity plans. The program helps families confirm their child is ready for kindergarten through five key action steps.

FAMILY GATHERING

Powered By F.A.N.S.

FACCES
THE FAMILY, ADOLESCENT & CHILD COMMUNITY ENGAGEMENT SERVICE

The Family Gathering has the mission to bring together families and resources of our community partners and supporters. This is a platform for families to share ideas with each other, collaborate with their community, and encourage conversations on how they can be better served.

FRESH MARKET FESTIVAL

FRESH MARKET FESTIVAL

The Fresh Market Festival supplies the community with the needed resources that they deserve. This program helps the attendees lead healthier lifestyles.

Support comes from volunteers and donations from local organizations such as: produce, toiletries, home goods, toys, games, etc.

URBAN GARDEN

URBAN GARDEN

The Urban Garden Program provides a unique educational opportunity for the community.

This program uses systems of agriculture, aquaponics and hydroponics. It teaches the core principles of self-sustainability and practical gardening techniques for the community to learn and re-create at their very own homes.

The Urban Garden Greenhouse provides an oasis for families to bring their children to learn with hands on activities.

FOOD THERAPY

The “Food Therapy” program provides an opportunity for families to enjoy the tradition of cooking together. The food used to create these healthy meals are food items and ingredients distributed at the Fresh Market Festival.

All family members during each session work together to prepare the meal. Participants learn healthy food recipes and food sourcing from a professional chef.

Families learn skills to be used in their own kitchens that reinforce bonds and foster togetherness.
